

GREEN IS A NEW BLACK

SUSTAINABILITY AS A LIVING PARADIGM

Youth Exchange

23.10.2022 - 29.10.2022

Pedoulas, Cyprus

ABOUT THE PROJECT

Yes, we are aware about the climate change.

Yes, we know how important sustainability is.

Yes, we've seen "Don't look up" and understood the meteorite metaphor.

The question is how. How can we act? How can we make sustainability a leading principle of life? How can we influence on a personal level, other than waste sorting?

We want to have systematic knowledge, skills, and habits to support sustainability. Moreover, we are looking for real practices of fighting climate change, being more inclusive and knowing how we can contribute to the UN SDG's.
